DH SWOS Class 000 19 May 2021 – 17 December 2021 (NOTE 1)

NOTE 2: SWOS has moved all tactical training to occur after the completion of DH School. P-DHs slated to an Aegis platform will receive appropriate baseline training and some billets will receive an additional TLAM course. P-DHs slated to an amphibious platform will receive appropriate SSDS training and additional amphibious courses (JMTC, Amphibious Warfare Indoctrination, Expeditionary Warfare planning, etc.). I really want to be on the West Coast. I prefer CRUDES to AMPHIB but would like an AMPHIB or any job on the West Coast before an East Coast billet. It is not listed; however my dream job is DDG/CHENG/MAYPORT and I would like to be considered if the job becomes available. My spouse is military (LT J. Gish, helicopter pilot) and we request to be co-located. His detailer's contact information is: LCDR Joe Speed. Contact info: pilot@navy.mil/901-874-XXXX.

Duplicate billets are not displayed and all billets are subject to change based upon operational requirements, unforeseen circumstances, pre-commissioning crew scheduling and phasing plan changes. For instance, there may be more than one DDG OPS job in Norfolk, but the billet title, ship type, and homeport are only listed once. This billet list is a fluid document and could change to add or subtract billets on different platforms and homeports. **If your dream First Tour DH job is not listed, please specify that in the remarks section.** The homeports listed are based upon current information that is approved and available. Changes to homeport shifts may occur and once they are official we will notify the respective Officers.
